

# Functional role interpretation: S5

One-scenario view for detailed Results discussion.

## Behaviour profile

## Pair geometry

## Interpretation

Searcher role 0: higher direct search behaviour (0.333 search rate, 0.107 mean belief when searching). Explorer role 1: different search/belief profile (0.64 $\times$  searcher search rate, 0.82 $\times$  searcher belief-when-searching) and spatial separation (C-E distance 1.91 $\times$  C-C distance).
