

# Functional role interpretation: S6

One-scenario view for detailed Results discussion.

## Behaviour profile

## Pair geometry

## Interpretation

Searcher role 0: higher direct search behaviour (0.555 search rate, 0.012 mean belief when searching). Explorer role 1: different search/belief profile (0.36 $\times$  searcher search rate, 1.35 $\times$  searcher belief-when-searching) and spatial separation (C-E distance 3.39 $\times$  C-C distance).
